

Série GASK

Perfil de Borracha Alma de Aço

ESPECIFICAÇÕES:

- Material: Borracha EPDM preta ou PVC ambos com malha de aço

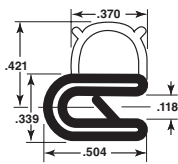

CARACTERÍSTICAS:

- A malha de aço no interior do perfil de borracha de vedação permite um encaixe firme (tipos 22 a 24 não possuem malha)
- Funciona como uma excelente borda protetora para chapas metálicas
- PVC é mais indicado para vedação por períodos longos
